

SB SERIES AERATOR

BUILT FOR RESULTS OVERBUILT TO LAST

The **SB SERIES** is the most versatile aerator on the market. Perfectly designed for achieving maximum sub-soil fracturing. With its full-size HD frame and full-width tongue sides, SB implements can be used for all types of brush management projects, as well as superior pasture aeration. This unique setup also provides the ability to utilize attachments such as a hydraulic seeder.

RANCHTECH BLADES® are produced from a special blend of alloys which has created the longest-lasting and most durable blade on the market today. This alloy gives the blades up to a **35,000+ acre** lifespan with a **LIFETIME WARRANTY** against breakage. They are forged (not milled) into an angled/ beveled shape. This forging process makes the blades self-sharpening. They are designed specifically to relieve compaction, manage crop residue, and create pathways for water and nutrients to get to the optimal root zone.

WEIGHT MATTERS. SB Series aerators range from 910 to 1,000 lbs. per foot. This allows our aerators to fracture, even the hardest of soils, deeper than any other aerator. Tine type aerators require weight to be stacked on top and ride on the axels and bearings. RanchWorx Aerators carry the weight in the drum transferring it directly to the blades - where it belongs.

RANCHTECH BLADES®		TINES	SPIKES	SHANKS
High work rate (5-11 mph)	✓			
Cut (not tear) root structure	✓	✓		
Brush management (up to 5 in. dia)	✓			
Lifetime warranty (breakage)	✓			
Reduce surface compaction	✓	✓	✓	✓
Reduce subsoil compaction	✓			
Grass stand setback				✓
Seasonal repair		✓	✓	✓

SB Series	MIN. HP	LBS PER FT.	DRY	W/ WATER
8' x 36"	70+	1,000	4,500 lbs	7,000 lbs
10' x 36"	80+	944	5,100 lbs	8,500 lbs
12' x 36"	90+	910	5,800 lbs	10,000 lbs
14' x 36"	110+	923	7,100 lbs	12,000 lbs
16' x 36"	130+	933	8,200 lbs	14,000 lbs
19' x 36"	145+	944	10,100 lbs	17,000 lbs

* All widths are measured from outside to outside of implement, drum width approx. 12" less, weights approx. Prices and specifications are subject to change. Tractor horse powers are suggested ranges and vary according to soil conditions and topography.

LIFETIME WARRANTY

AGAINST BREAKAGE ON RANCHTECH BLADES®

SL SERIES

The **SL SERIES** shares many of the same features of the well-known SB Series. These aerators have a slightly different frame design and tongue mount. If you are looking to focus on aeration, this is the implement for you.

RANCHTECH BLADES® are produced from a special blend of alloys which has created the longest-lasting and most durable blade on the market today. This alloy gives the blades up to a **35,000+ acre** lifespan with a **LIFETIME WARRANTY** against breakage. They are forged (not milled) into an angled/ beveled shape. This forging process makes the blades self-sharpening. They are designed specifically to relieve compaction, manage crop residue, and create pathways for water and nutrients to get to the optimal root zone.

WEIGHT MATTERS. SL Series aerators range from 690 to 940 lbs. per foot. This allows our aerators to fracture, even the hardest of soils, deeper than any other aerator. Tine type aerators require weight to be stacked on top and ride on the axels and bearings. RanchWorx Aerators carry the weight in the drum transferring it directly to the blades - where it belongs.

AGAINST BREAKAGE ON RANCHTECH BLADES®

SR/SR3 SERIES

The **SR/SR3 SERIES** is great for lite-duty aeration in and around tight spaces and small pastures. These aerators are equipped with RanchTech Blades® and have an unmatched drum weight.

The SR Series is offered in a variety of drum sizes and comes with a heavy-duty hydraulic lift system along with aircraft tires for transport.

The SR3 is the 3-point option and is great for smaller applications. They are designed to fit Class I, II, and III connections.

SL Series	MIN. HP	LBS PER FT.	DRY	W/ WATER
8' x 30" SL	40+	760	3,500 lbs	5,300 lbs
10' x 30" SL	50+	720	4,100 lbs	6,500 lbs
12' x 30" SL	60+	690	4,600 lbs	7,600 lbs
8' x 36" SL	50+	940	4,000 lbs	6,600 lbs
10' x 36" SL	60+	890	4,600 lbs	8,000 lbs
12' x 36" SL	70+	860	5,200 lbs	9,500 lbs

SR/SR3 Series	MIN. HP	LBS PER FT.	DRY	W/ WATER
8' x 20" SR	30+	500	2,700 lbs	3,500 lbs
10' x 20" SR	40+	470	3,100 lbs	4,200 lbs
12' x 20" SR	50+	450	3,600 lbs	4,900 lbs
8' x 20" SR3	30+	386	1,800 lbs	2,700 lbs
10' x 20" SR3	40+	378	2,300 lbs	3,400 lbs
12' x 20" SR3	50+	382	2,800 lbs	4,200 lbs

* All widths are measured from outside to outside of implement, drum width approx. 12" less, weights approx. Prices and specifications are subject to change. Tractor horse powers are suggested ranges and vary according to soil conditions and topography.
