

# SC SERIES AERATOR

## BUILT FOR RESULTS - OVERBUILT TO LAST

The RanchWorx® **SC Series**—our most advanced pasture aerator yet. Building on the trusted performance of the SB Series, which has set the standard for over nine years, the SC Series combines customer-favorite features with a range of innovative upgrades.

- An upgraded bridge design, now seamlessly accommodates a removable drawbar for unmatched versatility.
- A strengthened lifting system provides a robust platform for handling larger attachments with ease.
- Reinforced connection points throughout the unit improve strength and longevity.
- Lift lock option available on all 2026 models, delivering greater convenience and safer transportation.

Experience the next level of aeration with the SC Series, where innovation meets proven RanchWorx® performance.

SC Series	MIN. HP	LBS PER FT.	DRY	W/ WATER
8' x 30"	40+	830	4,000 lbs	5,800 lbs
10' x 30"	60+	790	4,700 lbs	7,100 lbs
12' x 30"	70+	740	5,200 lbs	8,100 lbs
14' x 30"	80+	740	6,100 lbs	9,600 lbs
16' x 30"	110+	730	7,000 lbs	11,000 lbs
8' x 36"	70+	990	4,400 lbs	6,900 lbs
10' x 36"	80+	940	5,100 lbs	8,500 lbs
12' x 36"	90+	920	5,800 lbs	10,100 lbs
14' x 36"	110+	960	7,400 lbs	12,500 lbs
16' x 36"	130+	960	8,500 lbs	14,400 lbs
19' x 36"	145+	930	9,700 lbs	16,800 lbs

## THE RANCHTECH® BLADE ADVANTAGE

The new RanchTech® blades have a beveled and tapered edge that sharpens with use. This new forged alloy gives the blades a 35,000+ acre lifespan.

The RanchWorx® Advantage comes from the wide sharp blades and spiral design. This design allows for the weight of the unit to cut, not tear, the root system. Since the blades are truly no-till, the plants will respond quickly and favorably.

## LIFETIME WARRANTY

AGAINST BREAKAGE ON RANCHTECH® BLADES

RANCHTECH® BLADES		TINES	SPIKES	SHANKS
High work rate (5-11 mph)	✓			
Cut (not tear) root structure	✓	✓		
Brush management (up to 5 in. dia)	✓			
Lifetime warranty*	✓			
Reduce surface compaction	✓	✓	✓	✓
Reduce subsoil compaction	✓			
Grass stand setback				✓
Seasonal repair		✓	✓	✓

\* All widths are measured from outside to outside of implement, drum width approx. 12" less, weights approx. Prices and specifications are subject to change. Tractor horse powers are suggested ranges and vary according to soil conditions and topography.

# SL SERIES

## BUILT FOR RESULTS OVERBUILT TO LAST

The SL Series shares many functions and features of the well-known SB Series Aerators. When your application is relieving compaction, cutting the rhizome, and soil aeration – the SL Series gets the job done.

RanchWorx Aerators utilize new drum diameters to fit a wider range of HP applications, while still utilizing our Commercial-Grade RanchTech® Blades found on all RanchWorx® Series aerators.

# SL3 SERIES

The RanchWorx SL3 Series meets the needs of those who need to aerate pasture fields, smooth/level, or work-in fertilizer. The 3-Point SL3 Series Aerators are the perfect implement to get the job done right. The SL3 Series is offered with traditional Pasture blades or with Turf blades. Pasture blades are typically used for more disturbance while the Turf blades leave little-to-no evidence of aeration. Turf blades are typically used on golf course, sports fields, and horse farms.

Offered in a variety of drum sizes, this series offers the benefits of a pull-type aerator. The SL3 Series is a great option for smaller to medium applications.

## THERE IS NO BETTER WAY TO AERATE THAN WITH RANCHTECH® BLADES

SL Series	MIN. HP	LBS PER FT.	DRY	W/ WATER
8' x 20" SL	30+	500	2,700 lbs	3,500 lbs
10' x 20" SL	40+	475	3,400 lbs	4,500 lbs
12' x 20" SL	50+	450	3,700 lbs	5,000 lbs
8' x 30" SL	40+	770	3,600 lbs	5,400 lbs
10' x 30" SL	50+	720	4,100 lbs	6,500 lbs
12' x 30" SL	60+	690	4,600 lbs	7,600 lbs

SL3 Series	MIN. HP	LBS PER FT.	DRY	W/ WATER
